## Health and Nutrition to improve and promote healthy skin

Blueberries are naturally an anti-inflammatory. Eating this yummy fruit will protect the skin from the sun and extend the life of the skin cells.

Beta carotene is highly present in carrots, which absorbs the harmful sun rays. Eating carrots will give your skin the healthy glow you long for.

Pumpkin seeds are a great way to tighten up your skin. They have tons of omega 3 fatty acids that build collagen, keeping the skin firm.

Want softer skin? Have a grapefruit for breakfast! They contain lycopene & Vitamin C which builds collagen, protects the skin from the sun, and fights wrinkles

Looking to detox your skin? Start eating more kale. The large amounts of Vitamin C in kale plays a huge part in anti-aging.

Scared of getting wrinkles? Simply eat more papaya! This fruit has TONS of antioxidants, which will prevent your skin from pesky wrinkles.

Coconut water is extremely hydrating, not only for the body, but for the skin too. Drinking coconut water hydrates and plumps up your skin.

Raspberries aren't only delicious, but they help repair and refresh damaged skin cells.

The skin of a cucumber contains tons of silica. Silica is helpful in maintaining a clear complexion, and getting shiny hair!

*Eating for a healthier You*

Consistent use of multistep age-fighting skin care regimen is essential for achieving and maintaining healthy skin and for helping fight the early-to-moderate signs of aging for a younger-looking you!
