TimeWise® Miracle Set® \$116

Reset the pace of skin's visible aging starting in as little as 2 weeks!* Give **TimeWise® Miracle Set®** 4 weeks, and results continue to get better, while adding improved radiance, skin texture and overall appearance.

- TimeWise® 4-in-1 Cleanser, 4.5 oz.
- TimeWise® Antioxidant Moisturizer, 3.0 oz.
- TimeWise® Daytime Defender Sunscreen Broad Spectrum SPF 30**, 1.0 oz.
- TimeWise® Nighttime Recovery, 1.0 oz.

Ultimatet TimeWise® Miracle Set® \$150

Includes TimeWise® Eye Cream, 0.5 oz.

Show special attention to the delicate skin surrounding the eye area. Give your **TimeWise® Miracle Set®** the ultimate boost with an eye cream that helps improve multiple signs of visible skin aging and fatigue. Formulated with algae extract — an ingredient that helps prevent undereye puffiness* and helps reduce the pigment that contributes to the look of dark circles* — this skin care regimen must-have provides 12 hours of moisturization.†

Beyond Ultimatet TimeWise® Miracle Set® \$208

Includes TimeWise® Eye Cream & TimeWise® Microdermabrasion Plus Set

Get the look of smoother, younger skin and significantly smaller pores.

With the **TimeWise® Microdermabrasion Plus Set**, you get the same instant polishing benefits of **TimeWise® Microdermabrasion Refine** paired with a powerful **TimeWise® Pore Minimizer**. This set dramatically improves skin's texture and visibly transforms the look of skin, creating a flawless-looking complexion. With just one use, fine lines instantly appear less noticeable, and pores appear smaller. Suitable for all skin types and skin tones.

Curious about retinol?

Perhaps you're interested in what it can do for your skin. Or maybe you've heard there can be potential discomforts, so you want to know more before you move forward. Read on! The information below will reassure you that this ingredient IS for you, even if you haven't seen a wrinkle yet (and most definitely if you have!).

What is retinol? Retinol, Retin-A and other retinoids are part of the vitamin A family. Our bodies produce vitamin A naturally, and it's critical for healthy cell development. In fact, topical application of this vitamin has been shown to help maintain skin's integrity by supporting natural production of collagen and elastin, along with improved skin cell turnover.

If you've come across retinol in the doctor's office, you may have seen it referred to as dermatology's gold-standard ingredient for both preventing and reversing the visible signs of aging. Beginning in your early 20s, you produce approximately one percent less collagen in your skin every year. Collagen depletion will continue FOREVER, unless something is done to combat it. Retinol IS that something.

What Does Retinol Do

Decades of scientific study by universities and dermatologists around the world have supported the remarkable benefits of this ingredient, demonstrating its ability to deliver younger-looking skin by:

Decades of scientific study by universities and dermatologists around the world have supported the remarkable benefits of this ingredient, demonstrating its ability to deliver younger-looking skin by:

- Preventing signs of visible aging you can't see yet.
- Reversing advanced visible signs of aging.

This potent form of vitamin A doesn't impact just one aspect of skin health. The vitamin has been clinically shown to help reverse multiple visible signs of aging like:

- Wrinkles
- Skin firmness
- Skin tone evenness
- Skin texture (smoothness)
- Skin elasticity
- Radiance

It achieves this by helping you regain the collagen that your skin loses every year:

- It supports natural elastin and collagen production, improving the appearance of collagen-depleted skin.
- Plus, it stimulates surface skin cell renewal, so skin appears more as it did when you were younger. (And if you're not yet seeing visible signs of aging, it can actually delay their appearance!)

How To Use Retinol

Pure retinol is a powerful ingredient to supplement your nighttime skin care routine. However, it's important to understand that when starting out with a pure retinol product, it takes time for skin to adjust to the potency. The introduction of a new, high-concentration formula can cause temporary redness, dryness and flakiness. These temporary discomforts will likely disappear once skin is retinized.

Tips and News for My Fabulous Mary Kay Customers

Mary Kay Clinical Solutions® Calm + Restore Facial Milk.

The first few weeks after applying pure retinol, you may need to moisturize skin more often than usual. This calming facial milk helps combat temporary dryness and can be used in addition to your normal, daily moisturizer. It features plant oils (coconut, jojoba seed, safflower and olive) to deliver a power shot of rich fatty acids that nourish and soothe skin, while glycerin and sugarcane squalane help prevent water loss. It can even be applied over makeup for touch-ups throughout the day whenever skin is in need of hydration.

During the retinization process, avoid physical and chemical exfoliation products, acne products and products with high concentrations of vitamin C since they may contribute to temporary dryness or irritation.

*Avoid eye area, and it's recommended you apply your eye cream first and assure it's absorbed before applying **Mary Kay Clinical Solutions® Retinol 0.5**.*

Pea-Sized Potency

High-concentration retinol is one ingredient where “more” doesn’t equal “better.” One pea-sized drop (one pump) applied on a consistent basis – even every other evening – will deliver visible improvement.

“Retinol is considered the foundation of youthful skin. Three decades of clinical research demonstrate its efficacy.”

Mary Kay Chief Scientific Officer, Lucy Gildea, Ph.D.
