Tips and News for My Fabulous Mary Kay Customers

Winter Hydration

NEW! TimeWise® Antioxidant Moisturizer \$34

Skin is about 60% water, so keeping it hydrated helps ensure proper balance and function. Everything from cold weather, heat and air-conditioning systems, wind and not drinking enough water can deplete skin's moisture. And dry skin shows more fine lines and wrinkles. But even oily skin needs hydration. In fact, oily skin may produce more oil trying to compensate for a lack of moisture. So remember to hydrate twice a day with a formula designed for your skin type.

Mary Kay® Intense Moisturizing Cream \$34

Factors like temperature, humidity, age and hormones can upset the skin's moisture balance. Experts recommend optimal moisturization for all skin types to leave skin soft, smooth and youthful-looking. Mary Kay® Intense Moisturizing Cream is a rich, luxurious cream for dry skin that leaves skin looking immediately more radiant and unbelievably soft and smooth. It forms a protective shield to minimize moisture evaporation and leaves the skin feeling hydrated for up to 10 hours.
